TOURISM OFFICE UPDATES

- **Hotel Incident Report**

For the hotels - thank you for continuing to use the Incident Report email list to share incidents with each other. (Thank you, Jessi, for reporting last month)

As a reminder to the hotels, this list is used to share incidents that you have encountered at your property with theft, transients, or problem guests (using stolen credit cards/identity theft or causing issues for staff or other guests).

This is a super helpful tool for giving the other hotels in our area a heads up.

A few years back there were a couple of men posing as guests at hotels (dressed in business attire). During breakfast, when people walked away from their tables, they would steal their backpacks/other bags – sometimes with passports, wallets, etc. Embassy Suites had sent out an email to warn the other hotels and those same people showed up to La Quinta and their staff recognized them.

- **Mixer** - Old Town Newhall (TBD)
